MEMORANDUM FOR: CHIEF, PROCUREMENT

SUBJECT: [REDACTED]

25X1A 1. You may remember [REDACTED] who was brought in by [REDACTED] to talk on procurement and contract supervision problems. My recollection is that we discussed the possibility of using him on a part-time consultant basis on certain types of procurement contracts. In any case he was asked to put in his papers.

25X1A 2. [REDACTED] called me on 10 April apparently to find out whether we had anything in mind and particularly to inquire if [REDACTED] departure made any difference in our plans. I said his leaving made no difference, but that you were still studying the procurement problem and I was not aware whether you planned to use him or not.

3. [REDACTED] said that the security investigation was obviously under way as he had heard of inquiries being made and that he had received some sort of communication from [REDACTED]. He said that he wants to make certain plans for the future and at present has spare time if anyone has a use for him.

4. I have no particular concern with [REDACTED] case and pass this on for your information.
